Your 2027 *Temperature Blanket* Starter Kit

One row a day. The weather picks the colors. You just show up with a hook and a cup of coffee.

How a temperature blanket works

1

Pick your blanket

Any pattern worked one row (or one stripe) at a time. Five of my favorites are on page 3.

2

Build your color key

Assign a yarn color to each temperature range on page 4. Tape in a snip so you never forget which is which.

3

Crochet one row a day

Look up the day's high temperature, find its color, and work your row. That's it.

4

Track it

Write each day's temperature on the year-at-a-glance pages and check it off when the row is done.

Finding your temperature

Use the daily high and stick with it all year. Lows work too, just don't switch halfway. Pick one city (yours or the nearest airport) and use the same source every time so your blanket stays consistent.

Every evening

Open your phone's weather app before bed. Today's high is right at the top. Jot it down on your tracker.

Missed a few days?

wunderground.com/history Type your city, pick the date, and read the daily high. Great for catching up a whole week at once.

In the US

weather.gov/wrh/climate Click your area, choose NOWData, then "Daily data for a month" for every high in one table.

Outside the US

timeanddate.com Search your city, then open "Past Weather" for any day.

Fell behind? Totally normal. Catch up once a week with the history sites above. Nobody is grading you.

52°F

Example: Tuesday's high was 52°F. That falls in 50 to 59°F, which is color #5 on your key. Work one row in color #5, write 52 in Tuesday's box, and you're done for the day.

Skip the weather homework

My Temperature Blanket Planner in the Briana K app logs your local weather automatically and tells you which row is next. Scan for 30% off.

PATTERN IDEAS

Pick your blanket

Any row-by-row blanket works. These five are my favorites for it. Scan the code or type the link to find the pattern on my blog.

YOUR COLORS

Temperature color key

Tape a snip of yarn in each box and write the yarn name next to it. Live somewhere warm or cold? Cross out the ranges you'll never see and split the busy ones in two.

BONUS: ROW COUNTER

Color your year

Grab colored pencils that match your yarn. Every time you finish a row, color in that day's stripe. It's your row counter, and you get a sneak peek of your finished blanket long before it's done.

BEFORE YOU START

Yarn shopping list

Your pattern lists the total yardage. The weather won't split it evenly, so buy a little extra of your middle colors. Those ranges always show up the most.
